## Successful conclusion of ISRI IMS Recertification Audit

Itogon-Suyoc Resources, Inc. (ISRI) successfully concluded its IMS Recertification Audit on 11-12 May 2026. This is an important milestone in the company's continuing commitment to quality, environmental stewardship and occupational health and safety excellence. The official audit results highlighted the organization's strong implementation of its management systems with 10 Good Practices. According to Engr Robert F. Wagtingan, ISRI's Resident Manager, "This achievement reflects the teamwork, discipline, and commitment of every ISRI employee who contributed to the successful conduct of the audit. The ISRI team moves forward, stronger and committed to operational excellence." Wagtingan says the concerned departments will undertake the necessary actions to address the opportunities for improvement and other findings cited by the IMS audit team.

***About ISRI: Itogon-Suyoc Resources, Inc. is a fully owned subsidiary of Apex Mining Co., Inc. Based in Benguet, it operates the Sangilo Mine in Itogon and spearheads the Suyoc Gold Project in Suyoc.***
